DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/10/2008 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 11-13, 16, and 22-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Trocki et al (US 2001/0047153).

Trocki et al discloses in figures 52A-C and paragraphs [0312-0313] a fluid injection system comprising an injector, a housing, a drive member (2702) having a retaining member (2764) and outwardly extending flange members (2765); a syringe, a plunger having a cylindrical wall with an inner and outer surface, the inner surface being circumferentially continuous, a retaining wall on which a plurality of inwardly projecting flanges are disposed which engage with the flange members to enable the drive member to retract the plunger within the body of the syringe.
